

RATPAC AKS PLUS DMX WIRELESS SYSTEM

Portability, Creativity, Efficiency

Imagine controlling lighting levels from your iPhone or tablet! Whether from your DIT tent, follow car, or right on set, the AKS PLUS gives you full control. Plug directly into any console via DMX. Small enough to fit in your hand, powerful enough to run your lights through a wireless transmitter and an Art-Net DMX node: An all in one unit powered by over 20 hours of battery life! Simply turn on the AKS PLUS, choose RatPac AKS PLUS in your device's WiFi settings, turn on your DMX app and you're ready to go!
